Exhibit E

Processing Options for Meeting an August 24, 2029 Completion Deadline

This exhibit illustrates how BOP could meet Plaintiff's proposed August 24, 2029 completion date through increased processing, further narrowing, or both. Plaintiff remains willing to narrow the Request but requires additional information from BOP to determine which modifications would meaningfully reduce the remaining records. The calculations assume approximately 35 monthly processing cycles beginning October 2026 and BOP's estimate of 62,000 remaining FOIA pages. Approximately 49,000 pages, or 79%, are attributable to the Item 1 email search, which BOP acknowledged captures substantial numbers of non-responsive records under its existing criteria. At 1,000 pages reviewed monthly, approximately 55% of the email universe would need to be eliminated to meet the proposed deadline. The exhibit separately estimates 6,100 pages associated with approximately 61 DOJ Form 361 authorizations, assuming 100 pages per individual, as BOP has not provided an estimate.

Estimate if BOP Followed Court Ordered Page Rate

Option	FOIA pages requiring review	Estimated Form 361 pages	Combined pages	Monthly review	Additional requirement
Increase to 2,000 monthly	62,000	6,100	68,100	2,000	Complete FOIA review in 31 months, separate Form 361 track. Not continue skipping months without court ordered leave.
Moderate increase and narrowing	52,500	6,100	58,600	1,500	Reduce email universe by 9,500 pages, separate Form 361 track. Not continue skipping months without court ordered leave.
Maintain 1,000 rate and narrow	35,000	6,100	41,100	1,000	Reduce email universe by 27,000 pages, separate Form 361 track. Not continue skipping months without court ordered leave.
BOP's actual historical rate, no narrowing	62,000	6,100	68,100	682	Approximately 91 months, completion May 2034 -7 years, 7 months

Estimate With BOP's Actual Processing Rate (682 pages per month) Compared with Proposed Completion Options

BOP's historical rate under ECF No. 42 is approximately 682 conventional pages reviewed per month. This accounts for missed productions, such as the June 2026 missed production without leave from the court. The table illustrates how reductions in the 49,000-page email search would impact the remaining universe if BOP continues at its actual rate, as opposed to the court ordered rate.

Email search reduction	Email pages eliminated	FOIA pages remaining	Estimated Form 361 pages	Combined pages	Months at BOP's actual 682 FOIA pages/month rate	Estimated FOIA completion
None	0	62,000	6,100	68,100	91	May 2034-7 years, 7 months
10%	4,900	57,100	6,100	63,200	84	October 2033 -7 years
20%	9,800	52,200	6,100	58,300	77	March 2033-6 years, 5 months
25%	12,250	49,750	6,100	55,850	73	November 2032 -6 years, 1 month
30%	14,700	47,300	6,100	53,400	70	August 2032-5 years, 10 months
40%	19,600	42,400	6,100	48,500	63	January 2032-5 years, 3 months
50%	24,500	37,500	6,100	43,600	55	May 2031-4 years, 7 months
60%	29,400	32,600	6,100	38,700	48	October 2030 -4 years
70%	34,300	27,700	6,100	33,800	41	March 2030-3 years, 5 months
77.8%	38,122	23,878	6,100	29,978	36	October 2029-3 years
